Urgent	Not Urgent	
Important	**Do - (Your MVP)** • Allow students to enter subjects, topics, and upcoming exam dates. • Let students rate their confidence in each topic (1–5). • Allow students to enter their available study hours.	**Schedule - (For V2.0+)** • Add progress tracking to monitor completed study sessions. • Integrate Google Calendar to sync study schedules. • Add AI-powered recommendations based on past performance.
Not Important	**Delegate - (Use a library)** • Use Java's built-in date and time libraries to calculate days until exams. • Use an existing UI framework to create forms and buttons • Use an existing calendar component to display scheduled sessions.	**Delete - (Cut it)** • Add social features like friends, leaderboards, and study groups. • Include customizable avatars and profile themes. •
